

JET Power-Flo
Throttle Body Spacer Installation Instructions
2000-01 Dodge Dakota/Jeep 4.7L
Part #62114

1. Remove throttle body cover and air intake assembly from the throttle body.
2. Remove the throttle cables and the bolts that mount the throttle linkage to the intake manifold.
3. Remove the 3 bolts that mount the throttle body to the intake manifold.
4. Install the JET Power-Flo throttle body spacer using the supplied o ring.
5. Replace the 3 bolts that mount the throttle body to the intake manifold using the new bolts and flat washers supplied in the kit.
6. Install the 3 throttle linkage extension plates using the supplied allen head screws and reinstall the throttle linkage to the plates.
7. Install 2 linkage extension plates using the supplied allen head screws to relocate the throttle body cover.
8. Verify that the throttle linkage, cruise control and kick down cables are NOT binding and that the travel on the linkage is correct before you start the vehicle. **NOTE:** In some instances it may be necessary to readjust the cables for proper travel - refer to your factory service manual for correct adjustment procedures.
9. Reinstall the air intake assembly.
